FY 2022 Requested Program Increases

| Amount (\$000) | FTE | Description of Program Change |
|-----------------|-----------|--|
| \$10,000 | |  Will support Tribes implementing necessary public safety changes due to the Supreme Court's McGirt decision. OK state and county law enforcement personnel now face challenges to responding to calls for police response due to lack of jurisdiction within the vastly expanded tribal areas. |
| \$10,000 | 3 |  Fund implementation of body-worn camera systems for police and correctional officers in Indian Country. BIA and tribes are seeking to leverage this proven technology to enhance accountability and transparency in law enforcement. |
| \$15,337 | 36 |  Requested to strengthen direct service and tribal law enforcement programs throughout Indian Country with "boots on the ground" funding. This foundational support helps increase officer-to-service population ratios that are critical to addressing historically high violent crime rates. |
| \$8,000 | 18 |  Will help address the growing personnel, equipment, and technology costs necessary to support safe and secure confinement of offenders sentenced by hundreds of tribal courts throughout the country each year. |
| \$5,000 | 20 |  To strengthen components of the Task Force on Missing and Murdered Native Americans. The additional funding will add 20 investigative personnel to BIA's Missing and Murdered Unit, which represents DOI's functional arm of the Task Force. |
| \$5,000 | |  The increase supports tribal courts operation and maintenance which has never been funded. This is a tribal funding priority identified by the Tribal/Interior Budget Council. |
| \$5,000 | |  Increase annual request level of Replacement/New Construction program to fund two replacement PS&J facility projects per year. |
| \$58,337 | 77 | Total PS&J Budget Increases |
