# Call to Order/Opening Prayer

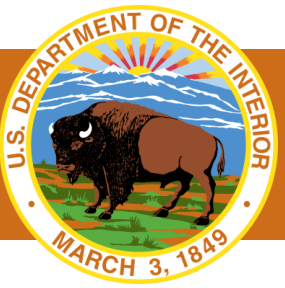

# Welcome/Opening Remarks

# Voting Member Roll Call

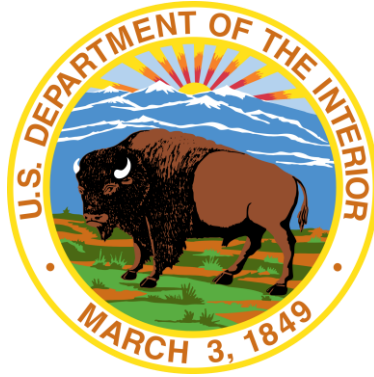

# Program Data Profile

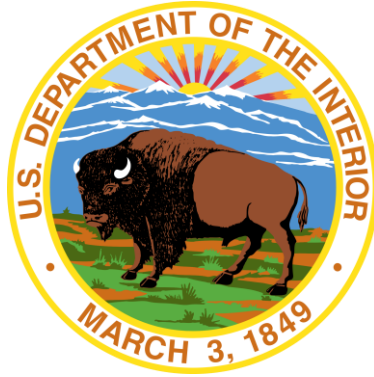

## Budget Subcommittee

- The Subcommittee should choose one BIA/BIE program to begin to create a holistic data profile of that specific program.
- Today's goal is only to select the program that this Subcommittee will work on, going forward.
- This is a new process. The intent is to develop a list of data necessary to operate and measure a program and to develop best practices to apply across measuring all programs.
