Notes from Technical Lead Nick Courtney

During the previous TIBC meeting the Education Subcommittee requested the following action items from BIE:

- A one-pager on the ISEP formula and any other more detailed information that may be necessary to understand how increases and decreases are applied under the ISEP Formula Funds and ISEP Program Adjustments line items;
- a report on internet upload and download speeds at BIE schools and at the homes of BIE students;
- further information on how remote learning will affect funding for schools when rolling averages of enrollees/attendees are taken into consideration;
- information on when the MOU between Indian Affairs and the Department of Education will be readdressed; and
- opening discussion on a possible new way to conceive the construction of BIE schools in a way that supports current operations and expansion.
