### VIII. Based on FY 2004 Preliminary CSC Shortfall Data (FY 2005 data is not yet available)...

If \$3.7 million is still available after all rescissions and we estimated new and expanded ISD requests to total approximately \$7.5 million (including pre-award, startup, DCSC and IDC costs) then it would fund Tribes with ISD requests up to approximately 59% of their need. This is a very fluid estimate and could vary greatly depending on the LNF of Tribes with ISD requests and the extent of total pre-award & startup costs.

Alternatively, if an increase of \$3.7 million were available to pay CSC shortfalls associated with ongoing contracts and compacts, we would estimate that 50% of these funds would provide for approximately 2.5 % of every Tribe's existing CSC shortfall and the remaining 50% of the increase would establish a floor such that no Tribe would be funded at less than approximately 56 % CSC LNF.

If another rescission of 1.8% or greater is enacted, (and this is sounding increasingly likely) then this all becomes a moot issue as such a rescission, on top of the 0.476 % rescission that we have already experienced, would effectively wipe out the balance of our FY 2006 CSC increase. A rescission of anything greater than that would necessitate a reduction of all Tribes' existing CSC funding.

\* Note: These calculations are based on information that has already been shared publicly in one form or another.

\*\* Note: Tables above contain preliminary data for FY 2002 - 2004 and need to be adjusted.

**COMMENTS:** 1/ Northern Cheyenne Tribe had a decrease in their IDC rate from a FY98 Rate of 33%. In addition the Tribes base for the Tribally Operated Health Programs did not increase substantially from FY2003 to FY2004. For the Confederated Salish & Kootenai Tribes I have been unable to determine the amount of funding for Pass Through attributable to the operation of their CHS program. I decided this year to utilize the funding amount that IHS provides from the CHS SSA as an estimate. Since this results in a CSC % of ongoing CSC need funded in excess of 100%, I was hoping this would encourage the Tribe to provide me with their figures. I was getting concerned that we are overfunding them, especially because their rate has jumped up from 16.6% to 20.67% in 2004.
